Preparation Instructions

1. Prepare 10% dilutions of violet leaf, nutmeg, black currant, and boronia absolutes in DPG (100 microliters absolute to 900 microliters DPG).
2. Add ingredients in order: musk tincture, violet leaf dilution, black currant dilution, boronia dilution, nutmeg dilution, essential oils (cinnamon, coriander, neroli, pink pepper, bergamot, lemon, lime), DPG, then ethanol.
3. Mix gently with a glass rod to avoid aeration.
4. Transfer to an amber glass spray or dropper vial and seal tightly.
5. Allow to rest for 48 hours before initial testing.
6. Optimal maturation period: 2–4 weeks for alcohol-based formulation.

This eau de parfum delivers a vibrant, cola-inspired scent with sparkling citrus, warm spices, and a sophisticated floral-musky base.
