

# Aventus-Inspired Fragrance Recipe (1 ml)

## 1 Ingredients

| Ingredient                              | Amount ( $\mu$ L) |
|---|-------------------|
| Ethanol (95%)                           | 400               |
| Bergamot EO                             | 100               |
| Patchoulol 10% (in DPG)                 | 50                |
| Sweet Orange EO                         | 20                |
| Petitgrain Absolute                     | 15                |
| Pink Pepper EO                          | 8                 |
| Clary Sage Absolute                     | 5                 |
| Neroli EO                               | 2                 |
| Black Currant Bud Absolute 10% (in IPM) | 6                 |
| Birch Tar 1% (in DPG)                   | 2                 |
| Paradisamide 10% (in DPG)               | 235               |
| Star Anise EO                           | 6                 |
| Pineapple Essence (Natural)             | 5                 |
| Iso E Super 10% (in DPG)                | 140               |
| Helvetolide                             | 140               |
| 3% Tonkin Deer Musk Tincture            | 50                |
| Galaxolide                              | 20                |
| Linalyl Acetate                         | 30                |
| Coranol                                 | 15                |
| Lylal                                   | 30                |
| Linalool                                | 15                |
| Veramoss 10% (in DPG)                   | 5                 |
| Isobutyl Quinoline 10%                  | 6                 |
| Damascone Alpha 10%                     | 3                 |

## 2 Preparation Instructions

### 1. Prepare Dilutions:

- Veramoss 10%: 1 g Veramoss + 9 g DPG, warm to 40–50°C if needed.
- Patchoulol 10%: 1 g Patchoulol + 9 g DPG, warm if needed.
- Birch Tar 1%: 10 microliters Birch Tar + 990 microliters DPG.
- Black Currant Bud Absolute 50% (optional): 500 microliters 10% + 500 microliters undiluted (or use 10%).
- Paradisamide 10%: 100 microliters Paradisamide + 900 microliters DPG.

2. Add 400 microliters ethanol to a 1 ml amber glass vial.

3. Add ingredients in order using separate micropipette tips: Patchoulol 10%, Deer Musk Tincture, Iso E Super 10%, Helvetolide, Galaxolide, Veramoss 10%, Isobutyl Quinoline 10%, Birch Tar 1%, Black Currant 10%, Damascone Alpha 10%, Clary Sage, Neroli, Pink Pepper, Petitgrain, Linalool, Coranol, Linalyl Acetate, Lyrall, Sweet Orange, Star Anise, Bergamot, Pineapple Essence, Paradisamide 10%.
4. Seal vial, roll gently for 1–2 minutes to blend.
5. Rest for 48 hours in a cool, dark place.
6. Test on skin, adjusting deer musk (30–60 microliters), Paradisamide (200–260 microliters), or Veramoss (5–10 microliters) if needed.

### 3 Expected Scent Profile

- **Top (5–30 min):** Pineapple, bergamot, orange, star anise, and pink pepper for a fruity-citrus-anisic burst.
- **Heart (30 min – 3 hr):** Neroli, petitgrain, clary sage, black currant, and florals (Lyrall, Linalyl Acetate, Coranol) for a juicy, spicy core.
- **Base (3–8+ hr):** Patchoulol, Helvetolide, deer musk, Galaxolide, Veramoss, and birch tar for a musky-woody-chypre drydown.

**Performance:** 5–7 hours, moderate projection, cologne-like crispness.
