 - Lemon Essential Oil: **20 microliters** (2% final concentration)
 - Lime Essential Oil: **20 microliters** (2% final concentration)
- **Spice Elements (3.5%):**
 - Ceylon Cinnamon Essential Oil: **10 microliters** (1% final concentration)
 - Coriander Essential Oil: **10 microliters** (1% final concentration)
 - Nutmeg Absolute: **5 microliters** (0.5% final concentration)
 - Neroli Essential Oil: **10 microliters** (1% final concentration)
- **Base Notes (0.2%):**
 - 3% Tonkin Tibetan Deer Musk Tincture: **33 microliters** (0.1% final musk concentration)
 - Violet Leaf Absolute: **1 microliter** (0.1% final concentration)
- **Carrier:**
 - Isopropyl Myristate (IPM): **851 microliters** (85.1% final concentration)

Preparation Instructions

1. Begin with the smallest quantities (violet leaf absolute and musk tincture)
2. Add essential oils and nutmeg absolute in order of increasing volume
3. Fill with IPM to reach 1 milliliter total volume
4. Mix gently with a glass rod to avoid introducing air bubbles
5. Transfer to an amber glass vial and seal tightly
6. Allow to rest for 24 hours before initial testing
7. Optimal maturation period: 1-2 weeks

This recipe creates a refreshing yet sophisticated fragrance with the bright, effervescent qualities of cola, grounded by a subtle musk foundation.
