

Violet Cola Flower

A natural cola-inspired fragrance with floral depth and fruity sparkle

Naturals-Only 1ml Fragrance Recipe

Ingredient	Amount
Order of Addition (Bottom to Top):	
IPM (Carrier)	817 microliters
3% Deer Musk Tincture	33 microliters
10% Boronia Absolute (in IPM)	10 microliters
~10% Black Currant Bud Absolute (in IPM)	10 microliters
10% Vanilla Absolute (in IPM)	50 microliters
10% Violet Leaf Absolute (in IPM)	10 microliters
Nutmeg Absolute	5 microliters
Neroli EO	15 microliters
Pink Pepper EO (undiluted)	10 microliters
Coriander EO	10 microliters
Ceylon Cinnamon EO	10 microliters
Lime EO	30 microliters
Lemon EO	30 microliters
Bergamot EO	50 microliters

Concentration Analysis

- **Citrus Notes (11%):**

- Bergamot Essential Oil: 50 microliters (5%)
- Lemon Essential Oil: 30 microliters (3%)
- Lime Essential Oil: 30 microliters (3%)

- **Spice Elements (4%):**

- Ceylon Cinnamon Essential Oil: 10 microliters (1%)
- Coriander Essential Oil: 10 microliters (1%)
- Pink Pepper Essential Oil: 10 microliters (1%)
- Neroli Essential Oil: 15 microliters (1.5%)
- Nutmeg Absolute: 5 microliters (0.5%)

- **Floral & Fruit Notes (1.4%):**

- 10% Violet Leaf Absolute: 10 microliters (0.1% final)
- 10% Vanilla Absolute: 50 microliters (0.5% final)
- ~10% Black Currant Bud Absolute: 10 microliters (~0.116% final)
- 10% Boronia Absolute: 10 microliters (0.1% final)
- 3% Deer Musk Tincture: 33 microliters (0.1% final)

- **Carrier:**

- Isopropyl Myristate (IPM): 817 microliters (81.7%)

Expected Scent Profile

The vibrant purple color represents the violet and blackcurrant notes, while the vanilla flower and blackcurrants illustrate key ingredients in this fragrance.

Top Notes (5-30 minutes): Bright citrus burst of bergamot, lemon, and lime with pink pepper's fruity-spicy sparkle and violet leaf's green fizz, mimicking the effervescence of freshly poured cola.

Heart Notes (30 min - 3 hours): Complex blend of spices (cinnamon, coriander, nutmeg), florals (neroli, boronia), and fruits (black currant). The black currant's tangy, sulfurous fruitiness adds cola-like depth, with variable intensity due to the ~11.6% dilution.

Base Notes (3-6+ hours): Warm musky-sweet foundation from deer musk, vanilla, nutmeg, and traces of boronia, reminiscent of cola's lingering aftertaste.

Overall Performance: 4-6 hours of wear with moderate projection, embodying a natural, artisanal character. This niche, natural cola interpretation features prominent citrus-spicy-floral notes, with black currant adding a variable tangy intensity.

Preparation Instructions

1. Begin with IPM carrier in a 1ml vial
2. Add each ingredient in the specified order, using separate micropipette tips:
 - Tip 1: IPM
 - Tip 2: 3% Deer Musk Tincture
 - Tip 3: 10% Boronia Absolute
 - Tip 4: ~10% Black Currant Bud Absolute
 - Tip 5: 10% Vanilla Absolute
 - Tip 6: 10% Violet Leaf Absolute
 - Tip 7: Nutmeg Absolute
 - Tip 8: Neroli EO
 - Tip 9: Pink Pepper EO
 - Tip 10: Coriander EO
 - Tip 11: Ceylon Cinnamon EO
 - Tip 12: Lime EO
 - Tip 13: Lemon EO
 - Tip 14: Bergamot EO
3. Seal vial and roll gently to blend without introducing air bubbles
4. Allow to rest 24-48 hours in a cool, dark place for notes to meld properly
5. Test on skin, noting the prominence of black currant (adjust between 8-12 microliters if needed in future batches)

Notes for Future Batches

- Black currant concentration may vary (~ 0.08 - 0.15%). If too strong, reduce to 8 microliters; if too weak, increase to 12 microliters.
- For viscous ingredients, warming to 40 - 50°C for 10-15 minutes improves handling.
- When DPG arrives, consider remaking the 10% dilutions for easier dissolution.
- Remaining black currant absolute (approximately 1.9g) should be stored in the fridge.

A sophisticated all-natural interpretation of cola with vibrant citrus, delicate floral notes, and tangy fruits balanced by warm spices and a musky foundation.
