Expected Scent Profile

Top Notes (5-30 minutes): Crisp bergamot with lime and lemon's cola-like fizz, accented by pink pepper's woody-spicy kick and violet leaf's faint green crispness.

Heart Notes (30 min - 4 hours): Boronia's tea-like, woody-floral accord with frankincense's smoky resin and nutmeg's dry spice. Neroli and cinnamon are minimal, with black currant as a trace cola hint.

Base Notes (4-10+ hours): Myrrh's earthy incense and deer musk's raw, animalic depth, with minimal vanilla, create a rugged, masculine finish, primed for Iso E Super's woody radiance.

Overall Performance: 8-10 hours with strong projection, crisp and smoky with a masculine, cola-inspired edge. Iso E Super will enhance to 10-12 hours with very strong projection.

Preparation Instructions

1. Preparing resin dilutions: Combine 100 microliters frankincense or myrrh resin powder with 900 microliters IPM per 1ml vial. Shake, rest 24-48 hours, warm to 40-50°C if needed.
2. Begin with 755 microliters IPM in a 1ml vial.
3. Add ingredients in order, using separate micropipette tips:
 - Tip 1: IPM
 - Tip 2: 3% Deer Musk Tincture
 - Tip 3: 10% Boronia Absolute
 - Tip 4: ~10% Black Currant Bud Absolute
 - Tip 5: 10% Vanilla Absolute
 - Tip 6: 10% Violet Leaf Absolute
 - Tip 7: 10% Frankincense Absolute
 - Tip 8: 10% Myrrh Absolute
 - Tip 9: Nutmeg Absolute
 - Tip 10: Neroli EO
 - Tip 11: Pink Pepper EO
 - Tip 12: Ceylon Cinnamon EO
 - Tip 13: Lime EO
 - Tip 14: Lemon EO
 - Tip 15: Bergamot EO
4. Seal vial, roll gently to blend without air bubbles.
5. Rest 48-72 hours in a cool, dark place.
6. Test on skin, noting incense-musk dominance and boronia's balance.

Notes for Future Batches

- If incense is too smoky, reduce frankincense/myrrh to 30 microliters each.
- If musk is overpowering, reduce deer musk to 40 microliters.
- If cola hint is absent, increase black currant to 3 microliters.
- Warm viscous absolutes to 40-50°C for handling.
- Remake 10% dilutions with DPG when available.
- Store resins and black currant absolute (approximately 1.9g) in fridge.
- Test Iso E Super at 50-100 microliters in a 1ml batch to enhance woody radiance.

A crisp, smoky, masculine cola-inspired fragrance with vibrant citrus, woody-floral boronia, and a resinous-musky base, enhanced by Iso E Super's radiance.
